Often Causes Severe Kidney Trouble—A A Muskegon Lady's Experience.

How often a sudden accident, a slip or fall, gives the back a twist and deranges the deli-cate fibers of the kidneys, which have their duties to perform and must be in a condition to perform them. They carry off the poison-ous acids from the blood, and, if they get out of order and refuse to do this, the whole system is affected by the poisonous uric acid carried to all parts in the blood. So it is that slight accidents, a strain, a fall, or a little twist in the back amounting to very little of itself often results disastrously if neglected. Doan's Kidney Pills are designed to restore the kidneys to healthy action. That they do this is easily proven by the statements of the public. A well-known lady of Muskegon is Mrs. Emily J. Audrus, whose comfortable home is at 16 E. Diana Street. She spoke of her experience as follows:

"Some time ago I had a terrible fall and it affected me in the back and kidneys. Oh, how it hurt me in through the back! I got so lame and sore I could hardly stir. I suffered everything and thought I would surely die the pain was so great I could not walk. At my age it was very hard to suffer so much. I my age it was very hard to suffer so much. I saw Doan's Kidney Pills advertised. I wanted to try them, as my kidney organism was affected by the fall. A box was procured firme at Brundage's drug store, and before I had finished taking them all, I felt easier in my back. I kept on taking them, using in all four boxes and the result is that I am now feeling all right. The pain in my back used to be so intense I could not sleep, and often had to use hot applications to get ease. Now I can rest and sleep well. Daan's Kidney Pills have been a grand thing for me. When an article possesses such merit as they do, it should be recognized, and I am glad to place myself on record as one who has tried them and found them to be as represented."

SOLDIERS TELL DAMAGING STORIES.

They Relate How Private Hammond Was Dragged Over Stones, Kicked and Prodded with a Sword by the Accused.

Chicago, Nov. 23 .- Capt. Leonard A. Lovering, of the Fourth infantry, stationed at Fort Sheridan, appeared before a court-martial at that post Monday to stand trial on a charge of "conduct prejudicial to good order and military discipline." The specific charge is causing Private Hammond to be dragged over the ground by the heels from the guardhouse to the office of the regimental adjutant, after Hammond had refused to walk. Brig. Gen. Wade is the presiding officer of the court. The first witness was Lieut, John J. Bernard, officer of the guard on the day Hammond was dragged. He testified that he ordered Hammond to appear before the summary court, and that the latter refused to go. He exhausted all means to get the private to go before the court, and these being unavailing he reported the matter to Capt. Lovering, who was officer of the day. He heard Capt. Lovering swear at the private. The lieutenant was unable to state positively to the court whether Lovering kicked or stabbed the prisoner.

Damaging Evidence. Corp. New, who was corporal of the day on October 9, but who has since been reduced to the rank of private, was the next witness called, and stated that Lovering, as officer of the day, sent three men to Hammond's cell with orders to prod him with bayonets if he would not walk. "He said he would die before he would walk," said New, "and then I saw Lovering kick him twice and

prod him with his sword." "How much force did the officer use?" asked the judge advocate.

"He kicked him pretty hard; so hard, at least, that Hammond felt it and rubbed his side," was the answer.

"How hard did Lovering prod the prisoner with his sword?" was the next question.

"The sword must have passed through Hammond's clothing," said Private New, "for he cried: 'Don't do that.' When the prisoner had been dragged down the guardhouse steps I saw Lovering prod him again. That time it was in the hand, and I saw blood trickle from the wound."

Sergt. Brainard was called and gave a minute description of how Hammond was dragged feet first over the sill of his cell down the guardhouse stone steps, a hundred yards along the walk, down over the curb, up again to the walk, down again and across the road over opposite the curb, up the steps to D company's quarters, then down over the curbs and finally up the steps of the

"How did Hammond look when he arrived at the court?" asked Col. Hun-

"He was crying when the rope was taken from his feet," answered the witness. "His pants were worn through to the skin, and when I returned with him to the guardhouse he showed me cuts made by Capt. Lovering's sword. They were all bleeding and were deep." Corp. Ward was the last witness and his evidence corroborated that of Corp. Adjournment was taken to to

City of Mexico, Nov. 23 .- The great trial of Arroyo's murderers is over, terminating Monday evening with the sentence of death pronounced on ten of the police officials and policemen concerned in the butchery of the hapless whetch whose audacious attempt on the presi-dent caused so profound a sensation here. The courtroom was crowded to its

utmost capacity, for the closing scenes in the trial were most dramatic. Villavicencio and Cabrera took the verdict coolly, as in fact did all the prisoners. Dellido was sentenced to 11 months' imprisonment, and Cueller, who bought the knives at the order of his master, the late Inspector Gen. Velasquez, and also Bravo were acquitted and set free. The condemned men do not yet seem to realize their perilons results. Their lawyers entered an appeal in each case. Public opinion sustains the ver-

The men were working in a sewer when the cave in occurred.

Sank Into the River.

Lisbon, Nov. 23 .- At six o'clock Monday morning a big masonry wharf having a frontage of 300 meters on the river Tagus opposite the custom house appeared in the river bed. An official examination has disclosed the fact that the wharf, which was recently constructed at a cost of £ 50,000 (\$250,000), rested on mud. Soundings to the depth of 36 meters revealed no solid foundation. Fortunately no one was hurt in the collapse.

Big Furniture Store in Baltimore Completely Destroyed.

A LADY CUSTOMER LOSES HER LIFE,

WIPED OUT BY FIRE.

Loss is Estimated at \$135,000-Flame Destroy Big Stores and Post Office Building at Streator, Ill .-Loss, About \$250,000.

Baltimore, Md., Nov. 23 .- The entire contents of the five-story building, Nos. 317 and 319 North Howard street, occupied by William H. Scott, popularly known as "Great Scott," as a furniture store, were Monday destroyed by fire, in which one woman, Mrs. Susan E. Maxon, of 1536 Williams street, lost her life. The interior of the building, occupied by Mr. Scott, which is owned by Michael F. McCormick, was also completely demolished, although the four walls remain standing. The total damage to that and adjoining property is estimated at about \$135,000. The two adjoining buildings, occupied respectively by the Uriah Pollack Furniture company on the south side, and by Potthast Brothers, dealers in antique furniture, on the north side, were considerably injured by fire and water, the former sustaining the greatest loss. In the alley immediately in the rear of the Scott building three small houses, occupied by colored people, were damaged to the extent of about \$500, sparks having fired the roofs.

A Woman Perishes. The fire was discovered shortly after two o'clock, at which time there were 45 employes in the store and about 25 customers. Preparations for holiday trade had been made, with the result that an unusual amount of furniture of every description was contained in the building. A panie followed the dis-covery of the fire and everyone rushed to the nearest place of egress. Mrs. Maxon, who was alone, is thought to have fallen or to have fainted from fright, her body being found soon after the flames had been subdued. A salesman had his ankle sprained and a fireman was slightly hurt, but beyond these cases no other casualties are known to have occurred, though it was rumored after the fire that four persons had lost their lives.

AT STREETOR, ILL.

Post Office and Big Store Burned-

Loss, About \$250,000. Streator, Ill., Nov. 23.—The large department store of D. Heenan & Co. was destroyed by fire Monday night, entailing a loss to the firm of about \$200,000. The fire was caused by the explosion of a lamp in the millinery department on the second floor and started about 6:30 suddenly subsided and completely dis- o'clock. Before the firemen could respond to the alarm the room was all ablaze. A strong wind aided in spreading the fire to other departments, and the whole interior of the three-story structure was soon a seething furnace. The firemen then turned their attention to the surrounding buildings. The post office adjoined the store and was completely destroyed. The mail and valuables were removed, but the fixtures were destroyed, the loss being \$2,000. The Ottawa fire department was telegraphed for and arrived promptly, but the fire was then under control. The total loss is estimated at \$250,000.

YELLOW FEVER.

Returns Show a Total of 4,289 Cases and 446 Deaths.

Washington, Nov. 23.-According to the last weekly report issued by the surgeon general of the marine hospital service, giving the returns up to the 19th inst., there had then appeared during the yellow fever epidemic in the south a total of 4,289 cases, of which 446 had proved fatal. Of the total number of cases 1,847 were reported from Louisiana, 1,625 from Mississippi, 740 from Alabama, 52 from Tennessee, 16 from Texas, 4 from Illinois, 3 from Georgia and 1 each from Florida and Kentucky. All but ten of the cases reported from Louisiana were credited to New Orleans. Among the cities Biloxi and Edwards, Miss., come next, the former with 584 and the latter with 45. Scranton, Miss., furnished 360 cases and Mobile 355. In Tennessee the fever was confined to Memphis. Ocean Springs, Miss., where the epidemic originated, furnished 23 cases and six deaths. The cases in Kentucky, Illinois and Georgia were confined to refugees. A computation shows that about 101/2 per cent. of the cases proved fatal. In Mississippi the death rate was less than six per cent. of the total number. At New Orleans 141-3 per cent. of the patients died, and at Mobile less than 13 per cent.

CAPTURED AGAIN.

Arrest at Guthrie, Ky., of a Notorious Jailbreaker. Memphis, Tenn., Nov. 23 .- J. A

Thomas, alias Thurman, alias Lutz, well known all over the country as a clever forger and jail breaker, has been rescaptured and is for the third time behind the bars of the Memphis jail. Thomas was captured Monday morning at Guthrie, Ky., by City Marshal Gar-rett. He was arrested in Memphis or March 31 for forgery. He confessed his guilt and was placed in jail. On April 14 he escaped from prison, the escape being a very mysterious affair. He was arrested a second time at Moberly by a Memphis detective and was returned here and lodged in jail on Oc-tober 11. On the night of November 7 Thomas sawed two bars from his cell window and made good his escape for a second time. When the officers looked into his record fully it was found that he had escaped from the Cook county jail, Chicago, where he was held under the name of Morris for forgery.

Important Feature of the Recent Ne-

Washington, Nov. 23.—One of the most important features of the Behring sea negotiations, not heretofore disclosed, is that in the event that Great Britain and Canada consent to a suspension of pelagic sealing for one year the United States at the same time will agree to a suspension of all killing of seals for one year on the Pribylof islands, constituting the American seal possessions in Behring sea. As the islands are a part of United States territory, no question has ever arisen as to the right of the United States to do as it chose as to the seals while on land and within three miles of the shore, the three miles being a part of the islands according to international

There is a world of romance in the picture of a young girl reading her sweetheart's love letters. In a multitude of cases, if her future could also be pictured, the picture would contain a world of pathos. happiness, the supreme joy of mother-hood and the promise of a long, healthy life of helpfulness with the man of her choice. To the woman who suffers from disease or weakness of the delieate and important organs concerned in wifehood and mother-hood, wedlock means suffering and maternity death. Dr. R. V. Pierce is an eminent and skillful specialist, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. V. During that time, with the assistance of a staff of able physicians, he has prescribed for thousands of women. The institute of which he is the head is one of the greatest in the world. He is a regularly graduated physician and has practiced right in one place for thirty years. The esteem in which he is held by his neighbors is shown by the fact that they chose him for their representative in the National Congress. The regard in which he is held by those whom he has treated is shown by the thousands of letters printed in Dr. Pierce's Common Sense Medical Adviser, telling of the benefits derived from his treatment.

Dr. Pierce is the discoverer of a wonderful medicine for women, known as Doctor Pierce's Favorite Prescription. It cures all weakness and disease of the feminine organs. It allays inflammation, heals ulceration and scothes pain. It tones the nerves. Taken during the interesting period, it bunishes the usual discomforts and makes baby's advent easy and almost painless. Thousands of women have testified to its marvelous merits. An honest druggist won't advise a substitute.

The profit side of life is health. The balance is written in the rich, red, pure blood of health. Dr. Pierce's Pleasant Pellets cure constipation and make the blood rich and pure. They never gripe. By druggists.

The greatest claims for S.S.S. (Swift's Specific) are made by those whom it has cured, and after all the most valuable reputation is one which is given by those who speak from experience. We could publish a page of what we claim S.S.S. will do, but the people prefer to read of what it has done, and hence we give the testimony of reputable, well-known people in different parts of the country, who gladly tell of how S.S.S. has cured them of blood diseases, after trying other treatment in vain.

No wonder S.S.S. has such staunch friends. The experience of those who take it to-day will be the same as of those who twenty years ago found it the only cure. Blood diseases are obstinate, and cannot be cured by one medicine in a dozen which claims to cure them; so when S.S.S. is taken with satisfactory results, after a disappointing experience with other remedies.
